**New pavement, signal at KY 538-US 23 intersection in Boyd County**  
*Project nearing completion*

FLEMINGSBURG, Ky. – Traffic on Lake Bonita Road (KY 538) in Boyd County will switch to new pavement, and encounter a new traffic signal, on Tuesday, June 26, as a Kentucky Transportation Cabinet project to realign the highway nears completion.

The project, being done by Mountain Enterprises Inc. under a \$620,777 cabinet contract, shifts the KY 538-US 23 intersection southward and provides a traffic signal to enhance highway safety and traffic flow.

On Tuesday, contractors expect to tie-in the existing KY 538 corridor to a new section of roadway that connects to US 23. The new intersection signal is now in flash mode, and will become fully operational once the traffic switch takes place. Once the project is complete, the old KY 538 intersection will be removed.

Road work is subject to change depending on weather conditions. Motorists are asked to heed all warning signs, “Drive Smart” in work zones and remain aware of workers and construction equipment when traveling.
